

**Winslow Farm Community Association, Inc.**

**Pond Survey**

The WFCA is seeking Homeowner input on the future of the ponds. A Design Concept Report was prepared by Andy Knust of Bledsoe, Riggert, Cooper and James giving two scenarios for the futures of the ponds. One scenario is to restore ponds 3-7 keeping them as wet detention ponds. The second scenario is returning ponds 3-4 into stream channels and restoring ponds 5-7 as wet detention ponds. A copy of the report and detailed questions and answers can be found on our website [www.winslowfarmcommunity.com/ponds](http://www.winslowfarmcommunity.com/ponds).

We are now taking a survey of the WFCA Owners for their preference on the future of the ponds. This will provide the WFCA Board with guidance on the next phase. These are **the only two options** being considered by the WFCA Board.

Please check one:

\_\_\_\_\_ Option A - I/We prefer to see ponds 3-7 restored and remaining wet detention ponds.

\_\_\_\_\_ Option B - I/We prefer to see ponds 3-4 returned to stream channels and 5-7 restored and remaining as wet detention ponds.

Name (please print): \_\_\_\_\_

Signature: \_\_\_\_\_

Address: \_\_\_\_\_

Date: \_\_\_\_\_

Only signed and completed surveys will be accepted  
Please return by  
**January 15, 2022**

**PLEASE RETURN SURVEY TO**
